

## HUNNEWELL SUIT IS FILED

PETITION TO OUST COUNCILMEN GOES TO ATTORNEY GENERAL.

Papers Accompanied by Affidavits From Mayor and Citizens—To Go to Supreme Court.

Kansas City, Kansas.—The four councilmen of Hunnewell who have disagreed with Mrs. Ella Wilson, the mayor, are to be put out of office at once. A petition asking their ouster and a motion asking that they be suspended from service at once has just been forwarded by C. W. Trickett, special attorney instructed by Gov. Stubbs to investigate the matter. John E. Dawson, attorney general, will immediately file the petition in the supreme court of Kansas.

The petition takes up the history of the dispute in Hunnewell. It alleges that the four members of the council have refused to transact city business or confirm any appointments, although she has placed before them the name of every respected citizen of the town, including the village schoolmaster and that the councilmen have failed to levy the required tax and the municipality is without funds because of this.

The petition is accompanied by an affidavit from Mrs. Wilson and several affidavits from the citizens of Hunnewell. This suit is the outgrowth of the visit of the woman mayor to Kansas City last month. It was then determined to give the members of the council one more chance to confirm the appointments made by the mayor. The council refused to do this and the suit results.

## TWO SPRING SEASONS IN KANSAS

Fruit Trees and Flowering Shrubs Put Out New Leaves and Blossoms.

Hill City, Kansas.—The trees and shrubs of Hill City are exhibiting a curious phenomenon this fall by putting out new leaves and blossoms as though it were spring.

Apple and plum trees bloomed a few days ago and a lilac bush in the yard of B. F. Boston has several fine blossoms. Black walnut, maple and box elder trees have delicate new leaves.

The reason for the new foliage probably is to be found in the continued dry weather during August, causing the buds to set unusually early. Then a severe hail storm, August 26, stripped the trees of foliage and the warm weather of September caused the winter buds to become active.

## INDICT SHOE MACHINE TRUST

Both Company and Individual Officers to be Prosecuted Under Sherman Law.

Boston, Mass.—An indictment has been returned against the officers of the United Shoe Machinery company and a second indictment was found against the company itself by the United States grand jury. The defendants are charged with conducting a business in restraint of trade.

The individuals indicted are President Sidney W. Winslow, Edward P. Hurd, George W. Brown, James J. Storrow, William Barbour and Elmer P. Howe, directors.

Both indictments charge the defendants with working through the instrumentality of the United Shoe Machinery company in a way to make them as individuals criminally liable under the Sherman act.

## EASY TO CROSS AT GLASGOW NOW

Ferry Boat May be Called by Motorists or Farmers While Yet Five Miles Away.

Columbia, Missouri.—When the cross-state motorist reaches a point five miles on either side of the Missouri river at Glasgow now, he pushes an electric button placed on a sign post. By the time he reaches the river bank he will find a ferry ready to convey him across the stream. Curtis Hill told the central highway workers in Columbia about the way Glasgow was working to retain the official route through their city.

He said the ferry now could make a trip in from three to five minutes. Four motor cars can be carried at once. The push button on the post rings a gong in the ferry tender's house and he is ready with his ferry any time of the day or night.

## Denver May Have to Explain.

Washington, D. C.—An alleged insult to the United States flag by Mayor Speer of Denver in ordering it hauled down by the marine corps is exercising high officials in Washington. An imbroglio with the federal authorities is deemed possible with Mayor Speer as the defendant.

## Train Robbers Got \$35,000.

Seattle, Washington.—Masked men held up a car on the Iditarod tramway one and a half miles from Flat City and stole a strong box containing \$35,000 in gold dust the property of Friend, Lawson & James.

## No New Party for Union Men.

Chicago, Illinois.—Organized labor in Illinois is opposed to the formation of an independent political party. The referendum vote on the question has been returned and it is overwhelmingly against a new political party.

## KING OF FLY SWATTERS TO FINISH JOB!

## IN KANSAS BANKS, 96 MILLION

SINCE LAST JUNE GAIN OF FOUR MILLION SHOWN.

J. N. Dolley, Commissioner, Says Money Institutions Are in Good Condition.

Topeka, Kansas.—There are 888 Kansas state banks, and the August statement of their condition just compiled by J. N. Dolley, state bank commissioner, shows that they have a total of \$98,882,801.16 in deposits. That is an increase of more than \$4,000,000 since the June statement.

The call was for the condition of the banks August 28. The banks show a total capital stock of \$17,528,300, a surplus of \$6,420,841, and undivided profits of \$2,263,367.62. The loans and discounts total \$80,175,978, and the cash and exchange \$35,540,431. The actual reserve is 35.7 of the deposits.

"The Kansas banks are ready for any emergency," Mr. Dolley says. "The returns of the call statement are very pleasing, showing deposits increased \$4,126,878.34, also an increase in the reserve account."

"Money has begun to come back to the banks, and the volume will increase strongly in the fall and winter."

## MANY KANSAS CHARTERS DEAD

Fail to Comply With the Law—Total Capitalization Represented Nearly \$50,000,000.

Topeka, Kansas.—Approximately 14,000 corporations in Kansas with a total capitalization of about \$50,000,000 lost their charters as a result of the action just taken by the state charter board, of which Secretary of State Charles Sessions is chairman. Of these, 674 are in Wyandotte county.

About four years ago the state legislature passed a law requiring a detailed report to the state from every intrastate corporation.

The last day for the reports to be filed passed, and the charter board has now declared their charters no longer effective.

## HADLEY BREAKS FIRST ROCK

Pettis County Will Try to Finish Route Ahead of Others to Gain Official Title.

Sedalia, Missouri.—In a drizzling rain Gov. Hadley, a heavy sledge in his hand, broke the first stone for starting construction work on the Missouri Capital Cross State Highway. A crowd of several hundred farmers and townspeople from Sedalia and Smithton cheered as the sledge fell again and again upon the heap of rocks under the governor's blows and work had begun on Pettis county's part of the southern route.

Elaborate plans had been made for the road opening, but, as was the case two weeks ago, rain marred the celebration. It was decided, however, not to delay the work any longer.

## Plow for the Interurban.

Dearborn, Missouri.—The first furrow on the grade work for the new Kansas City, Clay County & Excelsior Springs Interurban railway was plowed on the farm of Jas. Garand, just south of this city. About 100 persons witnessed the beginning of actual work.

## Flew 95 Miles in 78 Minutes.

New York.—C. P. Rodgers, the latest starter in the coast-to-coast flight has now arrived at Hancock, N. Y., after having flown 95 miles from Middletown, N. Y., in 78 minutes.

## New Club Building for K. U.

Lawrence, Kansas.—The students council of the University of Kansas has started a movement to erect a students' union building, to cost about \$100,000 where the students may meet on equal grounds.

## Kansas Groceryman Killed.

Independence, Kan.—Israel Shadley, a groceryman with a store in Aganippe addition, this city, was shot on the doorstep of his store as he was leaving it. He died almost instantly.

## WARSHIP RAMMED OLYMPIC

Liner Carried Largest List of Passengers Ever Taken on One Ship—None Injured.

Southampton.—The White Star liner Olympic, the largest vessel afloat, bound for New York with more cabin passengers aboard than have ever been carried before on one ship, was run down and a big hole stove in her side by the protected British cruiser, Hawke, in the Solent, off Cowles, Isle of Wight.

The accident was unique in the history of collisions. So far as is known by the officers of the ship no one was injured. It is said that both vessels were proceeding in the same direction, side by side and seemingly at safe distance apart. Suddenly, the White Star officials declared, the Hawke slewed violently around and its heavy armored stern struck the Olympic on the starboard quarters, crushing in its plates as though they were paper.

## RECIPROCITY IS SNOWED UNDER

Election Showed Decided Victory for Conservatives—The People Feared Annexation.

Montreal, Quebec.—The Laurier government and reciprocity suffered an overwhelming defeat in the Canadian elections.

By a political landslide the Liberal majority of 43 was swept away, and the Conservative party attained one of the heaviest majorities, upwards of 50, that any Canadian party has ever had.

Spurred on by appeals to patriotism and the cry that reciprocity was the entering wedge for annexation, the Conservatives swept nearly everything before them.

The result comes as an unexpected disaster in the face of the confident hopes of the government that it would be sustained on the paramount issue it had made on reciprocity between Canada and the United States.

## FIVE THOUSAND WERE PRESENT

Congressional Delegation and State Officials of Kansas Attended Madison Funeral.

Dodge City, Kansas.—More than 5,000 friends attended the funeral service for Representative Edmund H. Madison, but comparatively few of them could crowd into the church or around the grave in the cemetery. Every regular train brought friends from all over the state.

The business houses of Dodge City were closed part of the day and all were closed during the funeral services.

The town was draped in mourning and flags on the postoffice, courthouse, public library and city hall were at half mast.

## Oklahoma Cattle Law Attacked.

Oklahoma City, Oklahoma.—The constitutionality of the Oklahoma cattle quarantine law is attacked in a suit brought in Grady county by J. H. Stine and H. B. Johnson, cattle men, who have obtained an injunction against the state board of agriculture and the sheriff to prevent dipping their cattle for fever ticks.

## Ocean to St. Louis by Water.

St. Louis, Missouri.—The first shipment of freight from the Pacific coast by way of Panama and New Orleans, up the Mississippi river to St. Louis, is on the way here. The shipment consists of 1,500 tons of Pacific coast products, including canned goods, dried fruits and wines.

## Condemned Boy Scouts.

Pittsburg, Kansas.—The boy scouts were condemned by the convention of the Missouri State Federation of Labor here as a move by capitalists and employers towards militarism and intimidation of the working classes.

## Filipinos May Have Famine.

Manila.—Danger of famine in the Philippines on account of the failure of the rice crop has become so threatening that Gov. Gen. Forbes will order the purchase by the government of an entire shipload in Rangoon.

## ROBBERS MADE A LIGHT HAUL

Frightened by Their Own Noise, Burglars Fail to Get Into Safe Where Currency Was.

Sedan, Kansas.—The Citizens State bank of Chautauqua, eight miles south, was robbed at 3 o'clock a. m. of about \$150 in silver. The damage to the bank building and furniture will probably reach \$1,000. The robbers entered the bank vault by tunneling into it from the rear. They then put a charge of nitroglycerin into the safe and blew the safe door clear through the front door of the vault, knocking the vault door through the front of the brick building into the street. No one was aroused by the explosion and the robbery was not discovered until morning.

It is supposed that the noise made by this explosion frightened the robbers away, for they failed to get inside the safe, where the currency was kept, and the only money they got was in the counter changer that stood on top of the safe.

## SPAIN NOW FACES REVOLUTION

Government Learns Details of Revolutionary Plot Said to Include Murder of Weyler.

Madrid, Spain.—Martial law has been declared in Spain. This action followed reports of violence in connection with workmen's strikes which have been called in various cities to further, the government says, a revolutionary plot.

The most serious situation is at Valencia, where a general strike has been declared.

Premier Canalejas announced that the government has in its possession the details of a revolutionary plot uncovered at Valencia and Barcelona. Part of this plot was to assassinate General Weyler, captain-general of Catalonia. The government asserts that it knows the names of all the conspirators and the sources of their supplies.

## GROSSCUP MAY NOT RESIGN YET

Criticism of Magazines Leads Him to Consider Withdrawing Action Till He Can Clear Himself.

Chicago, Illinois.—Peter S. Grosscup, presiding judge of the United States circuit court of appeals for the Northern district of Illinois has now announced that he will not send his resignation to President Taft until the threatened publication of charges and criticisms of his judicial career have been made and he has taken action to vindicate himself. The jurist declared he would invite a far reaching investigation of his official conduct and would urge the appointment of a committee to investigate all charges that may be brought against him by responsible persons.

## KANSAS ARTIST WINS IN PARIS

Wichita Young Man Only One to Receive Individual Notice Among Showing of 160.

Paris, France.—John Noble, Las Wichita, Kan., artist who contributed to the Beaux Arts Salon last spring a painting which attracted much favorable attention, is now receiving praise for his work in another exhibition.

The artists now on their annual outing are giving an exhibition in which 160 pictures are shown. The Paris Plage devotes two columns to a criticism of this salon, praising the work of the contributors in general, but mentions only Noble as deserving of individual notice.

## Armour Has Wheat Corner.

Chicago, Illinois.—The defeat of the reciprocity movement in Canada will put millions of dollars in the pockets of J. Ogden Armour and A. J. Lichtern, who, until now faced enormous losses as a result of their big deal in May wheat. At the present time they are in the saddle and control the cash wheat situation in the United States.

## Indian Fair Lasted Two Weeks.

Watonga, Oklahoma.—More than 3,000 Indians, not counting visitors from other tribes, have been in camp here two weeks attending the second annual meeting of the Cheyenne and Arapahoe Indian Fair association.

## Struck Gas at Odessa.

Odessa, Missouri.—The prospect of being situated in a gas field is exciting this town. Drillers at work putting down a well southwest of here have just reached a flow of gas at a depth of 300 feet.

## Trains in Crash at Crossing.

Kansas City, Mo.—Incoming trains on the Santa Fe and Missouri Pacific railroads met in the Missouri Pacific yards about ten miles out of Kansas City. An engineer and a number of passengers were injured.

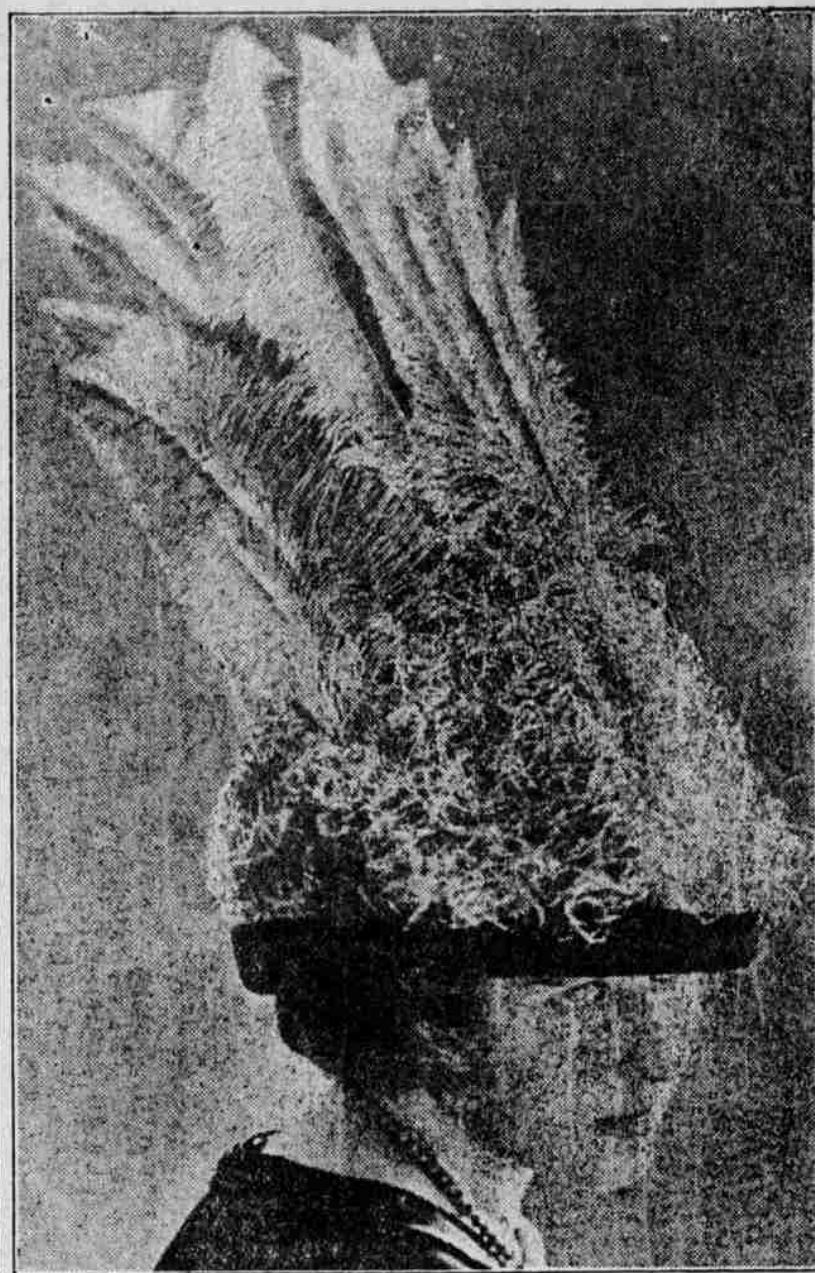

## Plan to Advertise Kansas.

Pittsburg, Kansas.—The second meeting of the Kansas Development association began here with an address by R. H. Faxon, the president, advocating a state immigration bureau.

## Taft Will Speak at K. U.

Lawrence, Kansas.—President Taft, who will arrive here Sunday morning will make 30-minute religious addresses to the students of the University of Kansas in Robinson gymnasium.

## Aspiration Hat

Photograph by Underwood & Underwood, N. Y.

It may be the height or the upward effect of this chic and daring creation that has given it its name, but in either instance the title is appropriate. Here we have the narrow brim and the tall trimming that character-

## FALL HATS FOR CHILDREN

Many Varieties and Styles Are Being Offered—Charming Creation of White Cloth.

Little people are likely to be careless about their clothes, and hats especially are tossed carelessly about, and unless a hat has been held in reserve for a dignified, well-groomed home-coming, mother or nurse may be obliged to go or send to town for this accessory. There are a great many varieties from which to select the early fall chapeau. There are hats of white cloth, of heavy, corded silk, and of suede. A charming white cloth hat has a dome-shaped crown, finished at the bottom with a pleated cloth band. About this is twisted white wool cord, ending in large wool balls. Another style, sure to be becoming, is of rough white cloth, with a band of royal blue velvet, and at the side a tiny round cluster of brilliant red wool berries and green leaves. A delightful color scheme this, and every effective. A style sure to suit the curly-haired girl is of ecrú corded silk, with black and cerise satin facing. A short, blunt ecrú feather stands up on one side, while a row of flat buttons, made of black satin, with cerise rims, trims the other side.

## DRESS FOR YOUNG GIRL

This simple dress might be made up in lined or any washing material. The skirt has slight fullness at the waist, and is trimmed at foot of center back and front by cotton braid, sewn on in half-diamond shapes; two buttons are sewn above this. The kimono bodice is trimmed the same at neck, waist and on sleeves. Materials required: Three and one-half yards 36 inches wide, two dozen yards braid, one dozen buttons.

## STYLES IN HAIR DRESSING

Smaller Chapeaux Will Necessitate Radical Changes in the Fashioning of Coiffures.

The gradual revival of the small hat is causing several modifications in the style of our coiffures. The day of piles upon piles of curls has quite passed, and it is even considered good style to wear the hair almost flat, so long as it is not strained back from the face. In fact, there are a few women who have always kept to this fashion of dressing their hair, and there is one big dressmaker, noted for her distinction, who insists upon her models doing the same thing. They part their hair in the middle, take it loosely back from the brow, and gather it into a rather protruding coil on the crown of the head. A tortoise shell pin or two, a silver or jeweled dagger, or some equally rare but simple ornament is the only decoration allowed with this style of coiffure.

In all styles, however, it is now the right thing to avoid ribbons, jeweled bands, tulle and all things which suggest the turban. The only people who will be sorry to see the new fashions in this particular detail of the toilet are the hair dressers, who have been making fortunes out of false hair.

## To Clean Kid Gloves.

Take a little sweet milk and a piece of white or brown soap. Fold a clean towel three or four times, spread it over your dress and spread out the glove smoothly upon it. Take a large piece of white flannel, dip it in the milk, then rub it upon the soap and rub the glove downward toward the fingers, holding the wrist of it by the left hand. Continue this process until the glove, if white, looks of a dingy yellow, but, if colored, looks dark and entirely soiled. Now let it dry and then put it on your hand, and it will be soft, smooth, glossy and clean. Take care, however, to omit no part of the glove in rubbing it and see that all the soiled parts are thoroughly cleaned. This process applies only to white and colored kid gloves. For black gloves that are soiled, turned white and otherwise injured, take a teaspoonful of salad oil, drop a few drops of ink into it, and rub it all over the gloves with the tip of a feather; then let them dry in the sun. White kid boots and slippers can also be cleaned by the first process to look "as good as new," and black kid boots and slippers can be restored to their pristine gloss by the latter method.

## Witch Hazel Cream.

The witch hazel cream formula given below is excellent. You will find it a good cream for cleansing. Of course fat is the basis of all tissue-building creams.

One ounce each of white wax and spermaceti, one-quarter pint of oil of almonds. Melt; pour into a mortar, which has been heated by being immersed some time in boiling water. Very gradually add three ounces of rose water and one ounce of witch hazel and assiduously stir the mixture until an emulsion is formed, and afterward until the mixture is nearly cold.
